

Which psychosexual fixation?

Read the description of psychosexual stages on page ___ in your textbooks. Decide which stage matches each person and put the right number next to the person's description

1. Oral receptive
2. Oral aggressive
3. Anal retentive
4. Anal expulsive
5. Phallic
6. Genital

<p>Jess likes to buy presents for her friends and relations. She is studying art and often makes paintings and sculptures for people. Her house is very messy but also very colourful and creative.</p>
<p>Because of his good looks, confidence and fun, spontaneous personality, Jack finds it easy to attract women. They tend to leave him quite quickly though, because he's so self-centred and unreliable and he's always running into problems with authority.</p>
<p>Rob used to be a heavy smoker. He's given up now but chews gum all the time instead. His wife doesn't like this, but Rob's so bossy she's too scared to mention it.</p>
<p>Will left his partner and son because he didn't want to be tied down and felt he needed to go off and "find himself". He's supposed to pay money for his son each month but keeps failing to pay up because he spends the money on buying more electronic gadgets and going out clubbing.</p>
<p>Tom is an accountant. He keeps his house very neat and tidy and likes to stick to the same routine every day. He is careful with money and feels anxious if he isn't fully in control of a situation.</p>
<p>Amy tends to sit back and rely on her boyfriend to make all the decisions in their relationship. People think she acts like a child – she even tends to suck her thumb.</p>
